SOCIETY MEETINGS

MAY - Mr. Albert Shoop, caretaker at Stanbery Park, presented an informative talk on wildflowers. His slides were beyond compare. He showed pictures of flowers from all parts of southern Ohio, some so rare as to be unknown to most of us.

JUNE - A basket supper was enjoyed by the membership on a lovely summer evening at Moundview Park in Newtown. President Wettstein and Roland Lowery egged us on at a lively auction which netted the Society a goodly sum. Mr. Steve Kline showed slides on the development of Moundview. We are delighted that another landmark is preserved and maintained.

JULY - In spite of an insufferably hot night, a large group turned out to hear Mr. Robert Dorsey speak on the planned development of Anderson Township. His presentation was completely understandable as he explained the expected growth of our community and the plans being made to cope with growth problems. While our Society is dedicated to searching out our past, it was thought-provoking to catch a glimpse of our future.

AUGUST - Plans are being made for our August 4 meeting...a repeat of the remarkable boat ride last year. We will meet at New Richmond dock at 6:30 p.m. (if you need transportation, be sure to say so when you make your reservation!) Phone reservations - 231-4726 or 231-6453, or drop a postcard to 1481 Sutton Ave, stating names and phone numbers. Bring your own supper...We'll eat aboard. There will be a small charge for drinks. C. B. Ayer and William Osmond have kindly consented to take us "cruisin' down the river." More boats will be used if necessary. Reservations CLOSE JULY 31st!!!!

SEPTEMBER - Mrs. Geneva Hartmann, Mrs. Gen Vontz and Mrs. Julie Myers will lead ATHS in a panel discussion on "How to do your own Genealogy" on Sept. 1. These women are experienced in tracing ancestors and will be very happy to give any information they have available - so come prepared with your questions and problems.

OCTOBER - Miss Gertrude Addicott, director of curriculum of the Forest Hills school system, and Mr. Harold Maddux, past principal of several Anderson Township schools, will speak on the history of Anderson Township schools at our October 6 meeting. This should be a very nostalgic and enlightening evening.

SOCIETY NEWS

TOUR - On Saturday, May 22, the Spring Bus Tour got under way from the Mall with members and guests being dutifully directed to the proper buses by chairmen Ann Zschau and Alice Taylor. The trip to Shandon was every bit as delightful and charming as we anticipated, and lunch was exceptionally good, complete with chicken and corn fritters. After visiting the lovely spots and drooling over antique furniture and dolls, a tired but happy group boarded buses for home.

COUNTRY STORE - Time is of essence...October is just around the corner! People have been very generous in donating materials to be used for the various projects connected with the Country Store. Now workers are desperately needed - particularly men who are interested in working with wood - (contact Jim Hutton, 231-0653), and women who enjoy sewing, knitting, crocheting, etc. Some packets have already been distributed; however, original ideas are needed and welcomed. Call Betty Wettstein, 231-8680. Can you make jelly, jam or preserves? The Society will furnish the sugar, jars and fruit, if needed. Call Betty Remke, 231-3825. Please take advantage of sugar sales in the stores even if you don't need sugar. ATHS will pay for it. Flour, too. Do you have a green thumb? Potted plants should be started now for the plant booth. Now is also the time to start collecting weeds that can be dried for fall arrangements. Details on the Country Store will be covered in a forthcoming special mailing. Please take time to read it. We need items to sell. Your creative and original ideas made a phenomenal success of our first Country Store. Let's do it again.....

(over)

ARCHAEOLOGY - Presently the Natural History Museum is directing a dig with volunteer help at the old Turpin House on the Little Miami River. Anyone interested in working at this site is welcome from 9:30 on Mondays, Tuesdays, Thursdays and Fridays. A member of the museum is in charge on these days. It was hoped that we could persuade them to permit us to dig evenings and weekends when more of us are free; however, this is not possible. For more information, call Marianne Beard, 231-1347.

SARGENT MAJOR ROLAND LOWERY is taking his Battery 1, First Ohio Light Artillery, to the August meeting of the Clermont County Historical Society. They will put on a Civil War display at the society's beautiful old home at Meldahl Dam.

MESSAGE FROM SWITZERLAND - "Hi! - the meeting will now come to order! Having a wonderful trip, very hot. We leave here (Lusanne) July 16. Hello to the group. As always. Lucy Hauser."

VOLUME IV of "Now and Then in Anderson Township" is just hot off the press. Another worthy one, Steve.

GIFTS - Many exciting, interesting and valuable gifts have been received by our Society throughout the three years of our existence. Mrs. Virginia Croxton has been storing many of these for us. There are other items at the cabin, and still others being held at donors' homes. Soon a roster of gifts and donors will be available to members.

CABIN NEWS

Open House Notes, June 16-21

- 600 people signed guest book and contributed \$250 to ATHS.
- Many new members joined
- Most frequently heard remarks, "I'm so glad you saved this!" and "I had no idea there was this much space in here!"
- Mildred Langdon, Marie Anderson and Ardelle Ertel lent furniture which made it look homey and warm. C. B. Ayer's table, which he donated to the Society, added much and was so useful. Much of the warmth was due also to the two hand-made rugs, one braided and donated by Alice Taylor, and one crocheted and donated by Margaret Sendelbeck and then redonated by Russell Pangburn who had won it at the raffle held at our January meeting.
- The hosts and hostesses did a great job! Everyone who came was made welcome by them. The ladies all looked so fitting in the cabin setting with their long, full skirts.
- All in all - 5 beautiful days. THANKS TO ALL!
- Two remarkable things: no traffic problems, and the steady stream of people even in pouring rain.
- Do you think that maybe we have done something desired by the people of our community? The response would seem to bear this out. It is a responsibility and a commitment we will not fail.

Work continues at cabin

- Fireplace repair has begun. The original is 5'2" wide and 4'8" high of native stone. Mr. Harvey Dickerson, the expert who is doing the work, says that it is well designed and will be usable.
- When this is completed, we will be ready to complete the painting on the first floor.
- Next job: cleaning and whitewashing fruit cellar. Can you help with either or both? Call 231-6453. (It is cool down there.)
- We need several people who will each volunteer to undertake responsibility for one small section of yard. This is urgently needed. Can you help? Call 231-3177.

Cabin news would not be complete without mention of the hard work and loyalty of Elizabeth Philhower and Roland Lowery. Many people help a lot, but these two are without par.

M.F. Director of Cabin Restoration

MEMBERSHIP

DUES for the current year were due in May. If you are one of the few who has forgotten to renew your membership, please send your check for \$3.00, \$6.00 or \$10.00 to our treasurer, Ralph Whitehead, TODAY!
